

WELCOME TO COTTENHAM COMMUNITY CENTRE

Please help keep vulnerable users of this building safe.

- 1.** Anyone showing current or recent COVID-19 symptoms or where a recommended self-isolation period following a positive test result is incomplete, should remain at home and NOT ENTER the Community Centre premises.
- 2.** Wearing of a face covering is now a personal choice. However, we're happy to see users continue to wear them, especially when areas are busy or crowded and when using confined areas such as toilets and corridors.
- 3.** Respect the personal space of staff, volunteers and others you do not have regular contact with.
- 4.** Good ventilation remains important - windows and doors left open should in general not be closed, except with the agreement of staff or activity leaders.
- 5.** Use the hand sanitiser provided or water & soap to clean your hands often.
- 6.** Catch it, Bin it, Kill it. Avoid touching your face, nose, or eyes. Tissues should be disposed of into one of the waste bins provided. Then wash your hands.

CCC Trustees, February 2022
